### HANDLING OF ANIMALS.

(b)(1) Handling of all animals shall be done as expeditiously and carefully as possible in a manner that does not cause trauma,... physical harm, or unnecessary discomfort.

A juvenile female wolf was seriously injured by a coati-mundi as a result of the wolf's enclosure not being secured. The wolf enclosure was previously located adjacent to the coati-mundi enclosure. The entry door was partially opened by the animal because it was not secured by a facility employee. This resulted in the injury to the wolf.

Assure that all animal are handled in a manner that does not result with injury. Assure that all animal enclosures are secured.

To be corrected: From this day forward.

Chad Moore ACI, USDA, APHIS, AC conducted the inspection with the facility animal program manager and director of activities. The inspection exit briefing was conducted with the animal program manager.
